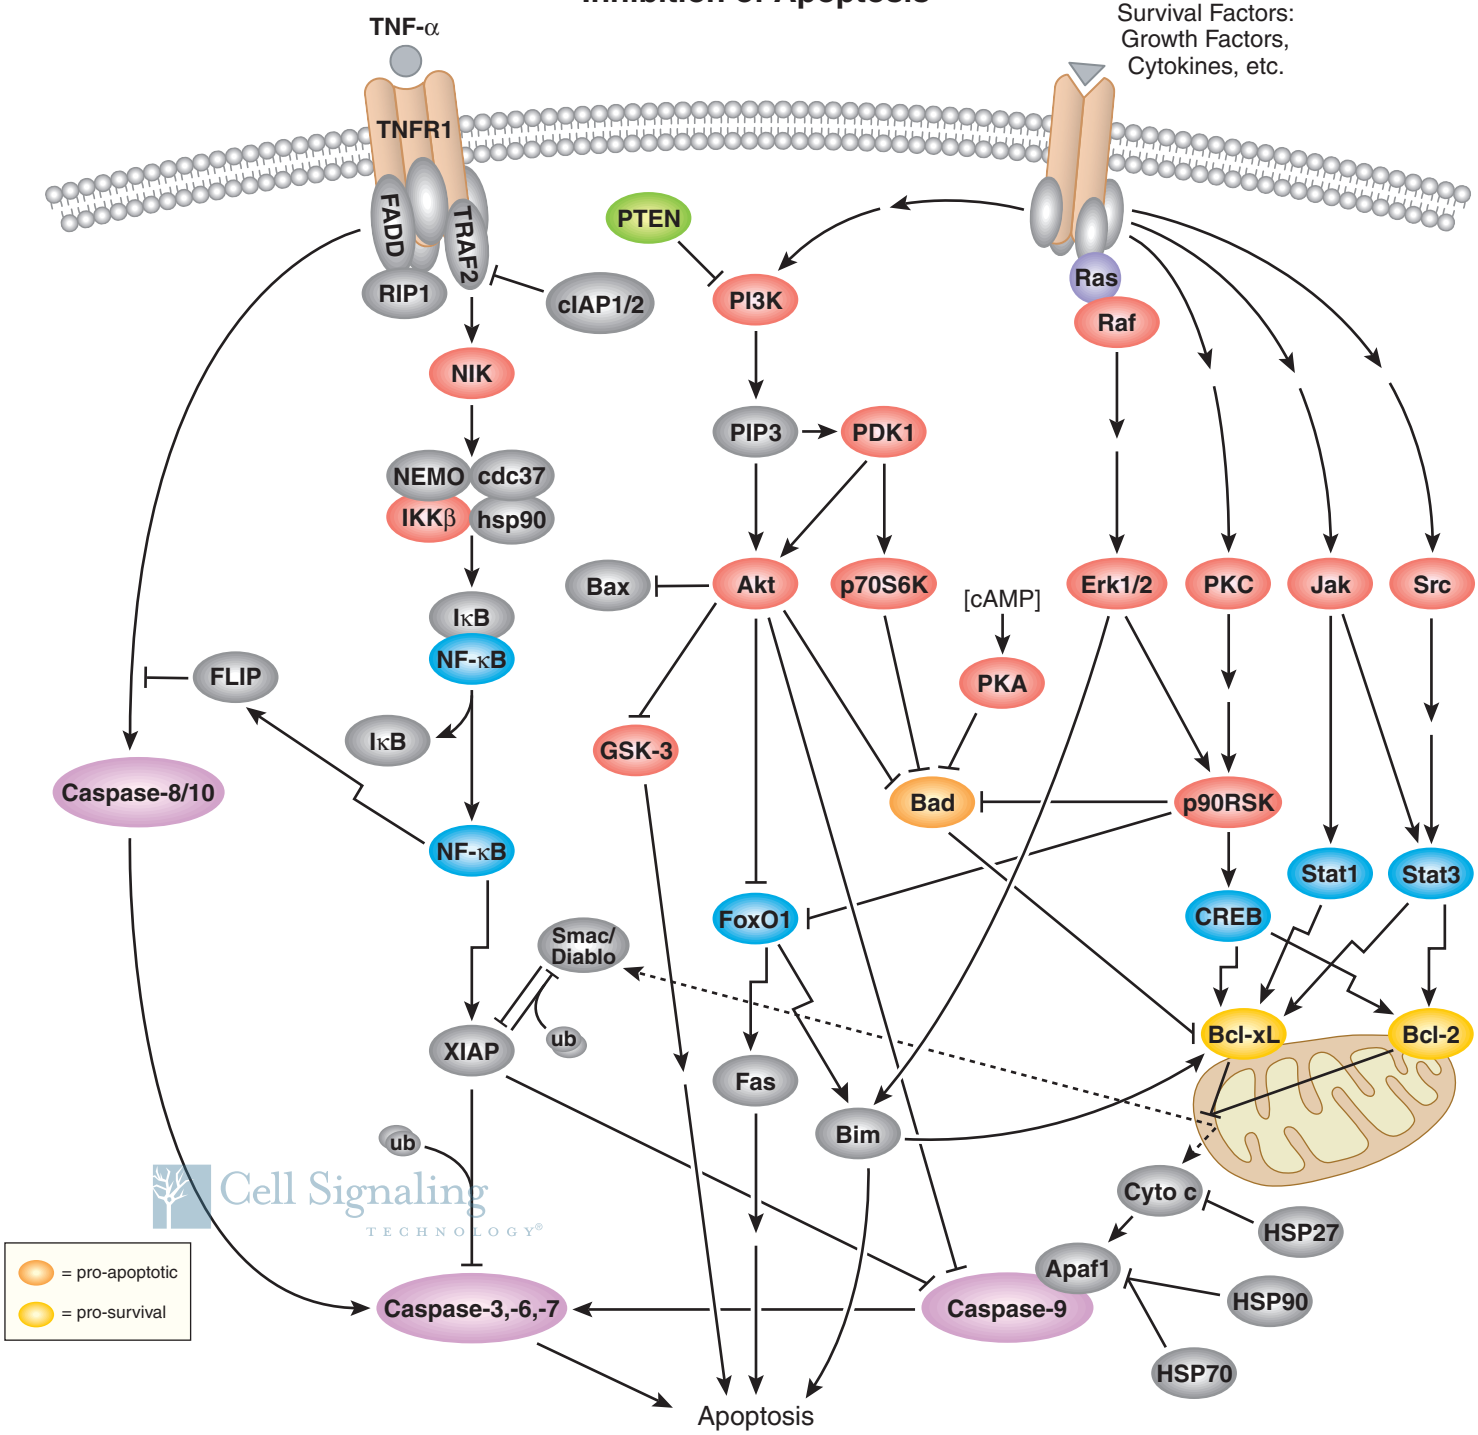
Inhibition of Apoptosis



KEY

Kinase	→	Direct Stimulatory Modification	⟶	Transcriptional Stimulation
Phosphatase	⊣	Direct Inhibitory Modification	⟶⊣	Transcriptional Inhibition
Transcription Factor	→→	Multistep Stimulatory Modification	⇢	Translocation
	→⊣	Multistep Inhibitory Modification	⟶	Separation of Subunits or Cleavage Products
	- - →	Tentative Stimulatory Modification		
	- - ⊣	Tentative Inhibitory Modification	⟶	Joining of Subunits
